Officer / Merced County,
Superior Court of
California / 209.385.7642

Interface provided electrical system design for the construction of this three-story court building for the County of Merced's Superior Court of California. Interface provided design services for interior lighting, site lighting with photometrics, fire alarm, card-key access, closed circuit television security systems, and power with redundant systems.

The 60,000 sf facility houses six courtrooms.
