Associates / 720.266.2582

Located in Central Oregon, near Bend, the new Pronghorn Village Resort promises to become the premier golf course in the Western United States.

Interface's design scope covered:

- » Clubhouse. Two-story building, 55,000 sf with lounge, dining areas, pro shop, exterior terrace area, kitchen, gallery assembly spaces and small locker room areas
- » The Residence Club. Seventy-six four-plex villas of two- and three-bedroom units
- » Villas at Pronghorn. Sixteen duplex villas ranging in size from 2,400 sf to 4,400 sf
- » The Trailhead. A single-story building consisting of assembly space, retail space, restrooms and prep kitchen

Our working relationship with Interface was excellent. Interface took into account Marsh's expertise in the resort and golf course arena and worked well within that special niche.

MIKE RIEBER, PROJECT ARCHITECT, MARSH & ASSOCIATES

Interface also is currently designing HVAC, plumbing, electrical, lighting, fire/life safety and power distribution for a future 15,000 sf spa.
